

SELF-CONTAINED SOLAR POWERED AIS System

Type SPB 300 – AIS

FEATURES

The SPB300-AL350 is both versatile and cost-effective. This self-contained solar power Area light beacon is compact, self-contained.

The beacon is designed to operate without servicing/maintenance for up to five years. Charge characteristics in dark conditions are superb. Due to its compactness, the beacon is especially suited for regions with low sun irradiation.

SPECIFICATIONS
